Commissioner for Patents

The reply brief filed on 26 April 2007 has not been considered because it is not in compliance with 37 CFR 41.41(a).

The Reply Brief filed April 26, 2007, in response to the Examiner's Answer (which introduces a new ground of rejection) is improper/defective.

When or if appellant requests that the appeal be maintained; the appellant must file a reply brief that addresses each new ground of rejection set forth in the answer in compliance with 37 CFR 41.37 9(c)(1)(vii) within two months from the mailing of the answer. The reply brief should include the following items, with each item starting on a separate page, so as to follow the other requirements of a brief as set forth in 37 C.F.R. 41.37(c):

- (1) Identification page setting forth the appellant's name(s), the application number, the filing date of the application, the title of the invention, the name of the examiner, the art unit of the examiner and the title of the paper (i.e., Reply Brief);
- (2) Status of claims page(s)
- (3) Grounds of rejection to be reviewed on appeal pages(s); and
- (4) Argument page(s).

In this instance, the Reply Brief is defective, as items 2 and 3 (above) have not been provided.
